EDUCATION

- SATYUG DARSHAN INSTITUTE OF ENGINEERING AND TECHNOLOGY, Y.M.C.A
B.TECH CSE
Completed in 2023
- TARUN NIKETAN PUBLIC SCHOOL
12th secondary education

SKILL

LANGUAGE FRONTEND

- JAVA
- HTML
- CSS
- JAVASCRIPT

FRONTEND FRAMEWORK/LIBRARY

- REACTJS
- NEXTJS

BACKEND DATABASE

- NODEJS
- MONGODB
- EXPRESSJS
- SQL

AWARDS/CERTIFICATES

Nptel -

- PROGRAMMING IN JAVA
- THE JOY OF COMPUTING USING PYTHON
- BUSINESS ETHICS

VISHNU KUMAR

PROFILE

I am a highly motivated and skilled web developer with a passion for building intuitive and engaging **user interfaces**.

I had gained practical experience in web development through internships and personal projects. With a focus on web development, has honed their skills in **JavaScript, ReactJS, NextJS, and CSS**, and has experience working with back-end technologies such as **Node.js** and **MongoDB**.

I am a quick learner and enjoys tackling challenging problems, leveraging their strong critical thinking and problem-solving skills to find innovative solutions. With experience in building algorithm visualizers, e-commerce websites, and blog apps, I am well-equipped to take on new challenges and make meaningful contributions to any development team.

WORK EXPERIENCE

Luneblaze - internship

Jan 2023 - Mar 2023

As a **ReactJS** and **NextJS** intern, I gained hands-on experience in developing and testing user interfaces and web applications using these popular JavaScript libraries. I collaborated with a team of developers to build a responsive e-commerce platform, and contributed to the implementation of new features and functionality. Through this internship, I gained a deeper understanding of front-end web development and honed my skills in ReactJS and NextJS.

PROJECTS

Ecommerce WebApp

📁 <https://vedic-ecommerce.netlify.app/>

- Built an e-commerce website from scratch using the MERN stack (**MongoDB, Express, React, Node.js, cloundinary**), and integrated payment gateway using **Stripe**.
- Developed a **responsive and user-friendly UI** with React and **Tailwindcss**, implementing features such as **jwt user authentication**, product listing, shopping cart, and order management.
- user can do operation like **login, register**, and can view products and purchase products and can also do payments by using **stripe payment gateway**.

Blog App NEXT.

📁 <https://vk-blog.vercel.app/>

- Developed a blog app using **Next.js framework, MongoDB database, Express.js server, and Node.js backend**
- Implemented **Cloudinary(cloud)** for image uploading and storage.
- Utilized **JSON Web Token (JWT) authentication** to secure the application and protect user data.
- User can do many operations all operations are created using **Rest Api's**.

Alorithm Visualizer

📁 <https://algo-visualizer-app.netlify.app/>

- Developed an **algorithm visualizer** using **ReactJS** to showcase maze generation, **pathfinding**, and **sorting** algorithms.
- Implemented various algorithms such as **Depth-First Search, Breadth-First Search, A* Search, Bubble Sort, and Merge Sort**.
- Demonstrated strong **problem-solving** and **critical thinking** skills through the development and **optimization** of complex algorithms
